

## Sustainability Indicators are Growing in Number

New sustainability indicators have been developed continuously:

1999

2000

2005

2007

2010

2011

Organizations dedicated to sustainability accounting have been established in Europe and North America.

1997

2011

Many financial markets sustainability indicators:

- Dow Jones Sustainability Indexes
- FTSE4Good Index
- MSCI Global Sustainability Indices

The number of standards related to sustainability is also growing:

- ISO 26000 Guidance on social responsibility
- ISO 50001 Energy management systems
- ISO 14000 Environment management systems

- OHSAS 18000 Occupational health and safety systems
- ISO 21929/30/31 Sustainability in building construction
- SO/TR 37150:2014 Smart community infrastructure
- IWA 9:2011 Sustainable development in business districts
- ISO 20121:2012 Event sustainability management systems
- AccountAbility AA1000 Assurance Standards
